confidentdragon506

I'm chattydress49. *I'm* Venus. Ok? I need to stop this. I never meant for it to get out of hand like this. I know I'm a complete idiot and you're readying your hate comments, but please, let me explain.

Confidence isn't my original account. My original account is Fairyjade254, or Fairy, who was a really old forumer who joined when the forums had just began.

As Fairyjade254, I did some stuff that I felt warranted a self-imposed exile. (Also, I was really inactive so no one knew me even after I had been on the forums for two years.)

After a few months, back in January of this year, I rejoined as Confidence.

I used to create different accounts to troll the forums back when I was Fairy. (but NOWHERE NEAR anything like this) I was sort of missing that, so I created chattydress.

And then the whole thing escalated. Chattydress turned into Venus, and I knew I was taking it too far. However, I was scared to stop it. But now I know this NEEDS to stop.

I should've said this earlier. I just want to stop the fear that has, like a dark cloud, descended over the forums.

You don't have to forgive me. I just want to clear this up.

hey, you're not a terrible person at all. we've all made dumb mistakes before, and honestly? before chattydress became venus, it was kind of funny, how we all thought this person legitimately believed it was okay to break the mods' rules as long as they were a "good persin" (not making light of the situation, but honestly, the grammar and spelling were hilariously bad)
we forgive you, and it was really brave of you to tell us, when you could have just stopped posting as chattydress and never mentioned it again.

You're forgiven, but I'm with Insanity on this. All of you are overreacting and we should drop this subject and not return to it. We'll view each other as we viewed each other before, and we don't need to go on about it for days. It was a mistake, and y'all are shouting it out to the entire forum, taking up pages with it. It was a joke, people didn't like it, and the drama should have ended there. This is all I have to say. Thanks for reading!

Okay everyone, let's look this over again. I understand that what Confidence did is wrong, and it really is. I know they apologized and all but...causing a panic attack? I believe that we should be more careful with things in the future, especially with things concerning the forums. Confidence, I understand you're apologizing, but just know not to do it ever again.

And Quartz, don't you dare feel guilty. All you did was share a dream, and that is something you should not feel sorry about. You did nothing wrong.

In all honesty, this is just a prank that got out of hand, and we need to know to be more aware of these kinds of things for the future.

And please please please make sure to console people that feel bad!! we need to make them not feel guilty, and that includes both of the parties involved[quartz and confidence]

Haven't been here in awhile, just casually stalk the forums.

This wasn't okay, but some people did overreact. I don't understand why you posted on the SAMB (my homeland), but thankfully it barely affected us. We had a little Candydragon situation happening that wasn't resolved yet at the time, though, so you were slightly unsettling. Everything is resolved there, too. If you haven't already, you might make an explanation thread on there. Some are still confused about the situation there.

Thank you for ending this... I don't really forgive, but I'll pretend to forget for your sake. Because while that wasn't okay, I do believe in second chances. Every time you type something keep in mind that these are real people with real feelings.
